Quality Children's Furniture

Cots / Cosleep (120 x 60 cm)

Find the perfect option among the different cots styles and combinations available.

It is possible to sleep with baby, giving them their own space, in a wide range of TRAMA cot models.

Sleeping with baby is an increasingly common option and, with the application of the optional Cosleep Kit, a simple, unique and safe system, you can install the cot next to your bed and, at any time, convert it to the standalone model.

Cots can have 3 base heights, but with the optional Cosleep Kit assembled, they can be adjusted up to 5 different positions, making it easier to adapt to the height of all types of beds.

12 BABY

14 HOLI

16 AVENTURA

18 BABY BEAR

20 ORION

22 MONICA

24 PRATICA

1 The cosleep mode facilitates the contact with baby and you can enjoy the benefits of sleeping tranquilly next to them knowing you are providing them with their own space.

2 It is especially comfortable during lactation period and night feeds.

3 It favors parents' rest, who do not have to get up when baby wake up and can comfort them by bringing them closer to their body.

4 Baby will feel secure and more relaxed when they go to sleep with the feeling of protection from their parents.

5 Later, the cot can be easily converted from cosleep mode to standalone mode fitted with an adjustable five-position base to accommodate the growing baby.

Convertible cot that transforms into a complete bedroom

26 Combi VIBE

designed to grow with your child

Cotbeds / Convertibles (140 x 70 cm)

Convertible cots with different use options, designed to adapt to the distinctive needs of each family.

Cotbeds: 140 x 70 cm models that convert into beds of the same size as baby grows.

They stimulate their autonomy, as they allow them to go up and down on their own, and prolong the useful life of the product with a second use.

Convertible cots: everything you need in a single product.

When baby grows, they convert to complete nursery rooms with a 190 x 90 cm junior bed, a desk and bedside cabinets.

Made with resistant materials, they are a practical and versatile solution, perfect to accompany the growing baby.

Minicot version 90 x 70 shown in Matt Black, with castors included.
